Old Timers who Have Gone

(By John Glanbeck)

The many old timers dances taking place lately in Calgary, Gleichen, Queenstown and other places brings to my mind the many old settlers who fifteen to twenty-one years ago lived in this district. Where have they gone?

Some moved away, some gave up farming and perhaps the bigger portion have gone across the divide to the happy hunting grounds beyond.

It might be of some interest to recall the names of some of them or at least as many as I remember at this moment.

First there was William Brown, the hardy old Scot, who was already an old settler of 25 years standing, when the rest of us arrived. In the early days Brown's was the headquarters of the district. A place where all were made welcome. It became the postoffice and general store and general stopping place for new homesteaders. Mrs. Brown still lives and David Brown, the youngest son, owns the ranch.

Calquhoun held sway a little further west, being manager of the old Circle ranch and Cal was quite a type and quite a few good stories could be told of him. When the Circle ranch was sold, Cal brought a piece of land on the reserve, but small farming did not appeal to him, and when Ted Thomas, another old timer and later a worker on the Circle, went to Vancouver, Cal joined him and is still out there.

One Robertson family had quite a few homesteads south and east of the Circle. Old man Robertson died some years ago. Frank went to Florida and, because a street car driver, Henry died of the "flu". Bill lives in Calgary and Jean died a year ago. Allan, the youngest, is now the only farmer left of the clan.

Another old settler named Robinson died in Calgary a couple of years ago and Frank Arndt, a canical good natured German, died a few years ago. The two Smiths, Bros. George and Ernie, lost their homesteads a while ago. Ernie now lives southwest of Milo.

Jensen, the painter, sold out and went to Alderson and took up more land. Jess Hepner, the carpenter and neighbor of Jensen, sold out and went to parts unknown.

There lived an old Finlander on the same section also dead and gone.

Norman Hall bought most of the land owned by the above and Norman sold out a year ago to John Winkler and now lives at Port Angeles, Washington.

Near the Browns two Montana boys, Moore and Walters, took up homesteads and both left many years ago.

John Kidd, who took up a homestead inside Browns pasture, sold out and went north. He died a few years ago.

Old Man Macomber now lives at the coast, while Ralph, the youngest son, has the farm. George Macomber, one of Queenstown's most promising young farmers, also died during the first "flu" epidemic.

Percy Kingsmith was one of the first boys in the district to volunteer for the Great War, and was killed in action.

Lawrence Irvin, also sold out and has lately been farming at Arrowwood.

Old Man Jordan died at the age of 80. He was a typical old frontier man, having crossed the continent along with his people in the gold rush of '49. Jordan's many sons, who had homesteads here, have all gone to parts unknown except Richard and Truman, who lives away over east among the hills.

W. Saunders sold out to Mike Monner among the hills. Winnie-died and no wives somewhere near the Little Bow.

George Hoerle, "Old Man Hoerle," one of the first settlers and big farmer, after losing his wife, got married. Continued on another page

HOCKEY

(BY DON SWAIN)

A home and home series between Gleichen and Bassano Midgets hockey teams last Friday and Saturday ended with the local boys again on the short end of an eight to six score. The first game on Friday at Bassano was much the better game of the two, Bassano at one time was up two, Bassano at one time was three goals down in this game and they came from that far behind, equalized and scored a winning goal which was disallowed afterwards on a time out and it was agreed to call the game a draw, four to four.

The Bassano game was a pleasure to watch from a Gleichen point of view on account of the good combination the boys used. Mr. Marcellus has been giving the Midgets a lot of coaching during the past week and they used it to such good effect that during the first period, Bassano was unable to cross the Gleichen blue line at all. The Gleichen team overdid the combination game in the second period and Bassano quickly got wise to the scheme of things and were intercepting passes and breaking through. It was due to this that they were able to equalize the score. I could not point to one particular boy who outstarred the rest of the team in that game, they all turned in a mighty good game, in the last frame, Max Yates scored a pretty a goal, as ever I want to see. Peter Downey intercepted a passed puck and broke fast, Yates following him closely, Peter drew the defence to him and passed to Max, and the latter drove in a hard one which the Bassano goalie never saw until it was in the net.

It was a mistake to play another game with Bassano the next day, the local boys were not home until half past two in the morning and as some of them have to get up early to get to work, it is only natural that they were not up to their usual game. However, I do not think the Midgets need to be downhearted by being defeated in home ice, although they were expecting to win. It must be remembered that this is the first hockey experience these boys have had whereas most of the Bassano boys have had three and four years experience. There is a decided difference to the good in the local boys' playing since they started the season, and when next winter rolls around I feel satisfied that we are going to have a snappy Midget team.

I don't know how much space I am supposed to use in this column, so I am not going into details about Saturday's game here. Bassano won four-two, and on the play, quite deserved their victory. Teddy Boos scored two nice goals for Gleichen on long shots, but in common with the rest of the team, lost his shooting eye altogether for the rest of the game, this applies particularly to the third period when Gleichen literally aimed shots on the Bassano goal. Did any "on it"? I should have said over it, beside it, anywhere but in it, they'd have shot under it if it were possible. George Rishaug worked hard, but was watched closely and heeded to a standstill. And here I want to raise a squawk, I do not get the idea of Gleichen fans' razzing George Rishaug at all. Two Bassano boys are as big as he is and if anything, play better than he does, and he is only of Midget age even if he does play for the Gunners as well. In closing, it is necessary to put in a word of praise for Harvey Bogstie in goal. He got in the way of shots that were apparently earmarked for the net and played a good game all through. This boy is going to be good some time.

LINE-UP OF TEAMS

Bassano—Goal, Austin Ford; Defence, A. Cadot and B. Ford; Forwards, Arrison, L. Leonard and P. McLean. Subs., R. McGregor and I. Warren.

Gleichen—Goal, Harvey Bogstie; Defence, John Cook and George Rishaug. Forwards, T. Boos, P. Downey. Continued on another page

Gleichen Bonspiel Starts With a Bang

The Gleichen annual bonspiel got away to a good start Tuesday morning with the ice very fast considering the mild weather. A good gallery was on hand all day and evening following the play closely.

All games played yesterday ended in close scores. There are 13 rinks entered in the Grand Challenge, 12 in the Distributors and play for the Merchant's begins this morning.

The following are the results up to midnight, Tuesday:

Distributors

Law of Chancellor defeated Taylor of Namaka, 6-5 on the last rock.

Clifford defeated Owen, 10-9, with the last rock on the button.

Harrison defeated Jeffers of Shouldice, 13-10.

Cuthbert defeated Bates, 11-10. Cuthbert was 2 up coming home, Bates with last rock 13 ends being necessary.

McDonald defeated Robinson 12-0.

Brown defeated Norton of Arrowwood, 12-11.

Law, Clifford and Cuthbert are now in the fours.

Grand Challenge

In the Grand Challenge only three games had been played.

Brown defeated Taylor, of Namaka, 10-8.

Owen defeated Law, of Chancellor, 13-9.

Jeffers, of Shouldice defeated McDonald, 12-11.

The prizes offered are quite equal to those offered at Banff last week and are as follows:

Grand Challenge: 1st Pyrex pie plates and silver stands. 2nd shirts; 3rd Belts and 4th cigar lighters.

Merchants: 1st, silver serving spoons; 2nd sweaters; 3rd gloves; and 4th chocolates.

Distributors: 1st silver sandwich plates; 2nd china plates, cups and saucers; 3rd bridge sets and 4th B.A. machine oil.

Consolation: 1st Pipe sets; 2nd knives; 3rd flash lights and 4th Imperial machine oil.

Grand Aggregate: Gold watch chain and knife, donated by the honorary president and the president.

TOWN AND DISTRICT

Albert St. Jean has returned from Calgary, having graduated from the technical school.

Vic Reimberg, the wheat King of Kooma, was in town to spend the week end with his parents.

Thos. Henderson is in the Calgary hospital for treatment, but expects to return to Gleichen in a short time.

Tomorrow is St. Valentine's day the CALL is expecting to receive a whole lot of real beauties—don't disappoint us.

The next meeting of the Gleichen U.F.A. will be held in the Meadowbrook Community Hall on Thursday, February 21st, when Mr. Ralph Umbrite will lead a discussion on hogs—breeds and marketing.

The Gleichen Curling team succeeded in carrying off the second prize in the Brewery Curling competition last week at Banff. The team comprised Messrs. Dan Macdonald, skip, Dan McLeod, lead, R. W. Harrison, second, Wilbur Jeffers, third. Each of these were presented with a fountain pen set. On the homeward trip they journeyed by aeroplane to Calgary.

About 4:15 Monday afternoon an aeroplane passed directly over Gleichen to the great delight of the school children, who, were on their way home. It was flying quite low coming from the east and a splendid view was obtained. Some of the lettering could be read and the colors were quite visible. It evidently was following the main line of the C.P.R. and headed for Calgary when last seen.

Interesting Board of Trade Meeting

Monday night the regular meeting of the Gleichen Board of Trade proved very interesting. The attendance was not very large but a number of subjects were discussed pertaining to the welfare of the town and district.

L. Michael reported for the committee appointed to confer with a committee from the Gleichen U.F.A. to discuss the formation of a Chamber of Commerce comprised of members from both town and country. Mr. Michael stated the two committees decided to hold a general organization meeting on Feb. 27th, at which a supper would be served and the work of organization proceeded with. The committee thought it advisable to state that every householder could be a member of the Chamber of Commerce and the costs divided between the two places. This report was accepted on motion of Messrs. Purcell and Michael.

A motion of Messrs. Michael and Taylor the management of the supper was left in the hands of the entertainment committee and Messrs. Beach and Gooderham moved that the expenses be paid out of the general funds of the Board of Trade.

E. W. Taylor reported for the Road Sign Committee that two signs could be erected for a cost of \$75, sixteen feet long, nine feet high and three feet above the ground as soon as the frost was out of the ground. Messrs. Beach and Michael moved the adoption of the report, and Messrs. Hutchison and Mattson followed with a motion that the same committee provide ways and means for financing these signs.

A letter was read from John C. Buckley, M.L.A., stating the Government would gravel the main highway to a point six miles east of Strathmore and that the new grade into Gleichen would be finished this year, and also the road to Arrowwood.

The matter of the septic tank on the Blackfoot reserve was discussed at length and it was decided to keep the subject before the authorities.

Messrs. Purcell and Gooderham moved that the secretary write Supt. McCarty of the C.P.R. asking that the station grounds be beautified and trees planted thereabouts.

On motion of Messrs. Beach and Michael Messrs. Ostrander, Ferguson and D. McLeod were appointed a committee to investigate how the auto camp grounds might be improved.

The report of the nominating committee for councillors and trustees being accepted the meeting adjourned.

Cluny Gun Club Dance Joyous Affair

The Cluny Gun Club held their fourth annual dance Friday last, which proved a great success, many coming from Queenstown, Gleichen and Namaka. These folks report having the best time of their lives. Mr. Corbiell and C. Shaffler took charge as floor managers and were appreciated by every one. The hall was gaily decorated with bright colors which added greatly to the spirit that prevailed throughout the entire evening.

On entering each party was presented with a paper hat representing many nationalities and occupations. The tables were gaily decorated with fresh daffodils. The music was supplied by the famous Scottish Bremner orchestra, which was enjoyed by all present as the encores were many and the concluding hour was in the vicinity of 3:30 a.m. The lunch supplied by the ladies was certainly a credit to them and the Gun Club takes this opportunity of thanking them for their good services which was appreciated by all the members of the Club.

To Form Chamber of Commerce Feb. 27

(Communicated)

As a result of good fellowship enjoyed at the community meeting held in Gleichen on June 8th last the Gleichen U.F.A. and the Board of Trade each appointed committees of their respective bodies regarding the advisability of organizing an association in which the mutual problems of town and country could be discussed, and a series of social meetings held quarterly which will bring the town and country together with the object of knowing each other personally, that they may the better understand the problems confronting each.

While it is the opinion of the committees that every resident of the town and district should be affiliated with their respective organizations, they wish to make it clear that the Chamber of Commerce is open to all who have a desire to be of service to the community.

Following is the proposed constitution as recommended by the committee which will be submitted for approval at the first general meeting to be held in the Gleichen Community Hall on Wednesday, February 27th.

That there be a Chamber of Commerce organized on the following lines:

Name: Chamber of Commerce of Gleichen and District.

Aims and Objects: To better conditions for people of Gleichen and district by getting together in a social way to solve our mutual problems.

The executive to consist of a president, vice-president, secretary and an executive committee of three. The executive be elected at a general annual meeting and that it consist equally of urban and rural members.

That the executive arrange for four general meetings during any one year.

That the executive have full power to transact business, which must be reported to the general meeting following.

That the executive have power to call emergency meetings.

That the places of meetings be the Gleichen Community Hall and the Meadowbrook Community Hall.

All the girls will want to dance with the little fellows on the 1st.

The Big Parade

With the coming of "The Big Parade" to the Community Hall, next Monday, Feb. 18th, return the combat thrills of 1917-1918 when America joined the war.

The doughboys, the officers, the tremendous mass push through the Argonne, the hand to hand fighting that cleaned out enemy trenches and machine gun nests, have been reproduced, not like the war propaganda pictures of that period, but in the intimate realism of the saner ten years' view. It is the doughboy's story—his, and the story of the girl back of the lines who also drank of war's dread cup. Laurence Stallings wrote it, King Vidor directed it.

John Gilbert as Jim Apperson "mopping up" the German nest shows a frenzy that only those who have lost a "buddy" in battle can know. Bull O'Hara, the other surviving "buddy," cries out: "D—n this war! They cheer us when we leave, and cheer us when we return, but what's it all about?"

An Incident Nearing the end of the awful clean-up, Jim spares a bayonet thrust, and soothes the last moments of his wonderful foe by the proffered solace of a cigarette.

Pioneer work through the Forest skulking from cover to cover talking it on the run across leafless meadows, meeting the enemy in the open in widely spread formation putting on the gas masks, deploying in trenches and shell holes just captured, going over the top again and again, the Yanks show the mettle that was embodied in an Argonne Commander's famous answer: "We will not go back, and we are ready!"

But King Vidor has sought in "The Big Parade" not only some of the myriad thrills of this colossal field of Mars, but equally the humor and romance. He was aided by the wide experience of Laurence Stallings, author of the story, and by the co-operation of several American Legion posts. The men worked for weeks with John Gilbert, Karl Dane and Tom O'Brien, who played the three buddies. Many of the vets' comic reminiscences of the life behind the lines were incorporated.

The spectacular parts of the picture were carried out under the direction of Brigadier General Paul B. Malone and Colonel Harry Bishop.

Wheel of Chance

The dirtiest kitchen in the world! And a silk-cushioned room adjoining! Such is the strange, contrasting set used in the filming of "The Wheel of Chance," Richard Barthelmess' starring feature which comes to the Gleichen Community Hall Saturday Feb. 16th.

The set, which plays an important part in this film version of Fannie Hurst's story, is where Margaret Livingston, in the role of Winnie Ross, plies her feminine wiles on unsuspecting manhood. The silked room is the one that captivates Barthelmess in the role of Jason, the other twin brother, and the kitchen is the place that crumbles his illusion and brings about the break between himself and the woman who was dragging him down.

The kitchen is chiefly notable for its unwashed dishes, "undies" hanging to dry, and countless cigarettes burning into the wood work. The other room is an exquisitely feminine arrangement of couches, cushions and drapes of gay silks, Aphrodisian statuary and pictures on the wall.

"The Wheel of Chance" is the third Alfred Santell Production to be made by Barthelmess, the other two being "The Patent Leather Kid" and "The Little Shepherd of Kingdom Come." Barthelmess is supported by an exceptionally noteworthy cast including Lina Basquette, who was leading lady in "The Noose," Margaret Livingston, Bodil Rosing, Warner Oland, Sidney Franklin, Ray and Roy Berendson (twin boys of three years), Martha Franklin, Ann Schaeffer, Jacob Abrams, Charles Clary, Spec O'Donnell, Joseph Girard and others.

Glen C. House left Tuesday morning with a carload of horses for the Peace River country.

The Ladies Circle will give a St. Patrick tea in the Gleichen Community Hall dining room Saturday afternoon, March 16th.

of the Second Division, U. S. A. They were among the officers commanding in the Argonne push, and the Second Division units, in the mimic war, relived the Argonne experience over again.

HOW A TOWN MAY BE MADE BEAUTIFUL

One of the greatest civic assets to-day is a beautiful town, and every citizen can aid in making it that. Flowers and trees and well kept buildings and gardens with neatly worn lawns are the greatest attractions a city can have.

The first thing in every town is for the people to be of the right kind. They must be alive to their opportunities, courteous to strangers, and keen for the common wealth as well as for their own individual advancement. Given such people, the towns will of necessity be made beautiful. People who are fully alive to their opportunities will be alive to the value of beauty in the building of the community.

But no town ever sprung out of under perfectly ideal conditions. There are always numbers of people who are not interested in anything that does not directly concern themselves. These have to be educated to the point that no person can succeed himself. It is in community success that lies the hope of everyone. By united effort, each doing his part and doing it well, a city may be made so attractive that the right kind of people will wish to live there and those who are not naturally keen on artistic developments, will be drawn into the movement through the enthusiasm of others.

Civic pride is infectious. It spreads rapidly if given a proper start and can be kept growing by a little judicious encouragement. People who have been slaves to their work become free through the development of their artistic and athletic qualities and the city benefits.

TALENT FOR MUSIC

Through tests devised by psychol-

ogists, many interesting and useful facts have been discovered concerning the aptitude of a child for various pursuits. If the information developed by these tests be practically applied, much time otherwise devoted to training for activities for which the child is naturally unsuited, may be saved.

It is now possible, according to University, to positively determine the musical talent possessed by any child, even before he begins the study of music. The sense of pitch, time, consonance, intensity and others may be determined with mathematical accuracy.

Practical experiments have demonstrated that a person may have a fine sense of pitch, with a poor sense of time, and so on. Only when all the elements of the musical mind are secure do we find real talent. When these purely musical elements are combined with a high general intelligence the foundation for an exceptional musician is found.

Contrary to the general belief, aptitude for music can not be developed by training. It must be inborn. A child with a poor sense of pitch at the age of eight will have a poor sense of pitch all his life, no matter how much he may study and practice. The same is true of the sense of time and rest. Training only develops that which is possessed at birth. A realization of these facts would save much useless torture for music students and those who must listen to them. If facilities for making the tests were available, a professor declares that no attempt should be made to force an unmusical child to learn music, for the result must be disappointing to all concerned. He says it is a tragedy to drive an unmusical boy to practice several hours a day on a violin, "while at the same time you may be ruining a perfectly good mechanic, or architect, or second baseman."

FAKE PRIZE SCHEMES

A rather ancient scheme for separating the unwary from their money is being worked again, both in the United States and Canada, according to a leading business man's magazine.

sion.

The plan is to insert an advertisement containing a perfectly simple puzzle which anyone can easily solve, and offer prizes for correct solutions. A favorite prize is a "building lot."

Of course, anyone who sends in a solution of the puzzle wins a lot, but it is intended that he will be expected to remit a small sum—in one case \$7.75—for the deed and other incidental expenses connected with the transfer of the property. The "lot" is very small and the \$7.75 fees alone would net the seller around \$200 an acre for some worthless land.

So, if the "winner" avails himself of the lot, he is not just \$7.75 for the privilege of working the puzzle, while his name is passed along to other scoundrels as an easy mark.

There are many perfectly legitimate offers advertised in various periodicals, but those which require a payment of cash before the prize is delivered are generally fraudulent and should be shunned.

BRITISH RADIO CHAIN

If recent recommendations of the British radio authorities be carried out, a wireless service which will gridle the earth will be at the command of that government.

It is recommended that a super-power radio station be established at Canberra, the capital of Australia, as the last link in the world-circling chain, the new station to have a sending radius of 5,000 miles. The nearest stations of equal power are at Singapore and Hong Kong.

Great Britain's central station of the great chain is at Hillmorton, near Rugby, England.

With the establishment of great international radio systems the locating of wave-lengths to various countries becomes a new problem in radio regulation.

The old expression "free as air" is losing its significance and freedom of the air may become as vital an international question as freedom of the seas.

The boys have originated in Manchester, where it has a history of 5,000 years. It was introduced into America about the end of the eighteenth century.

In Ancient Egypt

The art of brewing was known and practiced five hundred years before the Christian era. In 450 B.C. we are told that the Egyptians knew of old vines made a wine or beer from corn, Flax and Hollander's infers that the Egyptians had thought to have derived their taste for "Zythum" (meaning a barley drink) "because it was so necessary for human bodies."

Today malt beverages, BEER, ALE and STOUT are considered Health

Where BEER has once been introduced, it has generally become the national beverage. Ency. Brit. on "BEWING"

Here and There

(214)
 For the first time in history an airplane has been carrying furs from the wilds of Northern Manitoba to the Winnipeg market. Hollick-Kennyon, artist, left Caspary Portage for Brochet settlement recently taking his dynamo, vintage trader, whose aim was to beat all competitors who take a month to travel by dog team.

During 1925 between 5,000 and 6,700 British Empire Island hares have been shipped abroad, an increase of 100 per cent over the preceding year. These have been headed without any of the usual casualty. Since the middle of October furs have been shipped to Norway, Sweden, Holland, Germany, France, Holland, Belgium, and Japan.

Forty-two years of service with the Canadian Pacific Railway with the company's history, the railway record held by Arthur W. Barnes, engineer, who has just retired on pension. Mr. Barnes, who is well known throughout the Eastern Townships, died the train that laid the first steel on the line between Sherbrooke and Parham.

The old English Yuletide Festival held recently at the Empress Hotel in Victoria, B.C., proved to be one of the most popular events of last year. Carols and patriotic music were rendered. The ancient "Chester Mystery" played, and Dickson "Mr. Wardle's Christmas Party" was produced. The festive occasion, which has been held for many years, is believed that plans are already being made for a larger and better celebration next year.

There is an old saying to the effect that no one wants to buy a lawsuit, but J. E. Belts of Vancouver, B.C., appears to have done worse than that, by buying a funeral. A trunk purchased by him for \$14 at a sale of unclaimed express packages was found to contain the embalmed body

Mid-Winter Golf Tourney at Victoria, B.C.

These photographs were taken on the beautiful Colwood Golf Course, Victoria, B.C., where the first Empire Island mid-winter golf tournament for the E. W. Beatty challenge trophy, will be held during the week of February 18. These pictures, taken on the 21st of January, give some idea of the stannary aspect of Victoria's mid-winter weather. The hard-wooded landscape is not so fall as elsewhere, but there is a wealth of evergreen at Victoria to make the fairways attractive and at no time during the winter there sufficient moisture to spoil a round or to ruin the greens if played over.

that night. Come early and don't miss this treat.

An agricultural editor discusses the question, "Do cows like milking machines?" and there is bound to be a "chicken" Why not take a straw vote?

On Feb. 18th, there comes to Gleneden Community Theatre. Starting at 8:30 p.m. The Super picture, "The Big Parade" and there is bound to be a big parade and rush to the box office

HOME-GROWN NURSERY STOCK SOLD
AGENT FOR NORTHERN MANITOBA NURSERY
PRICE LIST

The planting of shelter belts, fruit trees, flowers
and shrubs around Alberta farms have made wonderful
progress during the last few years.

No doubt you have been visited by one or more
Nursery salesmen this year and what you bought (if any)
may or may not turn out all right. It all depends on
whether the stock has been grown on hardy or tender roots.

While experiments have proved that certain trees
can be grown with success in Alberta one thing is abso-
lutely certain and that is most trees bought from the East,
from B. C. or imported from below the boundary are not
dependable and will kill-out in some of our Alberta
winters.

Hence it is a good idea for the planter to obtain
stock as near home as possible or at least be sure that the
nurseries he buys from grow their trees on hardy native
roots and do not import trees from the States, as some
nurseries do.

For spring planting I offer for sale a limited
amount of stock grown on my own place at Milo, about 80
miles directly north of Lethbridge and about the same
distance south-east of Calgary.

Caraganas, 3 years old, from my own seed, per 100...\$6.00
Caraganas, Seedlings, per 100,\$1.25
Some Maples, Ash and Laurel Willows, per 100.....\$5.00
Sunbeam Raspberries (Hansen's best) pr. doz. 85c.
per 100\$6.50
Senator Dunlop Strawberry plants per. 100\$3.00
Purple Lilacs pr. doz.\$3.00
Iris flower Bulbs, Blue and yellow pr. doz.\$1.00
Hollyhocks, different colors, pr. doz.\$1.75
Pure White Phlox, pr. dozen.\$1.75

Early this fall I made a visit to the Northern
Manitoba nursery, from which I have purchased my own
fruit trees which have proved so successful, for the pur-
pose of selecting a few crab, apple and plum trees that I
could recommend as absolutely hardy and adapted to
Alberta.

From among a lot of trees I saw growing there
I selected the following, which has already proved good
on my own place, and had them shipped here. They are
now healed in for winter at my place at Milo ready for
spring planting.

These trees have been grafted on hardy native
roots. They are two and some three years old and four
to five feet tall.

Dalgo, Garnet, Prince and Tony, four of Pro.
Hansen's best Hybrids and Sapa, Opata and Cheny Plums.

These trees I offer for the low price of \$1.25 pr.
tree, \$7 for 6 and \$12 for 12; your own selection.

If you want any of this stock send in your order
as soon as possible as my supply is limited. Send half the
amount cash with order and pay balance on receipt of
stock in the spring.

As usual I take orders for nursery stock from
Boughens Nursery, Valley River, Manitoba, from which
place the following will be shipped.

Native White Spruce pr. 100 one foot \$10.; 1½-foot \$15.00
Pyrus Bacatta (Wild Crab,) splendid for Windbreak,
pr. 100\$10.00
Green Ash, 3 years, pr. 100\$15.00
Northwest Poplar, 2-foot, pr. 100\$10.00
Balm of Gelia 50c. or pr. doz.\$5.00
Golden Willows and Russian Poplars, 6 feet, pr. 100, \$15.00
Black Currants pr. doz.\$4.00
Red and White Currant, per doz.,\$3.50

SHRUBS
Josikia and Villosa Lilacs, pr. bush\$.75
Silver Dogwood, per bush,50
May Day Tree, per bush,50
Flowering Currant, per bush,50
Spirea Van Hauteii per bush, 50c. pr. doz.\$4.50
Honey Suckles, per bush,50
Virginia Creeper, 2 years, per bush,50
Rose Red, White, Yellow, Pink per bush, 75c.; 6 for \$4.00
Gladiolias, pr. doz.50c., 60c., 75c. and \$1.00
Peonies, per clump,3 for \$2.00
Shasta Daisies, 25c. or per doz.\$2.50
Bleeding Hearts,25c pr. doz. \$2.50
Dahlias, piece, 75c. or smaller ones, pr. doz\$1.50
Oriental Poppies, piece 25c, per doz.\$2.50
Veronica Speedwell, piece 20c. or per doz\$2.00
Larkspur, 25c. per doz.\$2.50
Columbines mixed, per doz.\$2.50

(Continued from page 1.)
**Old Timers who Have
Gone**

again and lives in Ontario; while
George, his son, moved to Maple
Creek, Saskatchewan.

John Williams, another old settler,
died some years ago and his son Steve
now runs the farm.

Joe McCabe, on account of ill health,
went to Vancouver, Wm. Bryan rents
his land.

Gordon Stuart was accidentally kill-
ed some years ago by a horse kick-
ing him on the head.

Burt Kent, one of the early home-
steaders tried to get rich operating
a threshing machine, but lost his
homestead by it and moved to Mon-
tana.

H. Hudson, his neighbor, who lived
on a regular Dakota dugout, has gone
to parts unknown.

Prat Mills, another early settler and
big farmer, died a year ago. His son
Russell now runs the place.

Old Man Aasgard and his two sons,
Louie and John, were among the
early settlers. The Old Man kept
the Milo general store for a number
of years. The Old Man and Lou
now live at Long Beach, Cal., and
John died during the "flu" epidemic.
The Aasgards still own the land but
have it rented out.

John Mason sold out and after
many adventures finally landed in Ar-
rowood, where he is now a success-
ful farmer.

Ira Miller left for Washington but
is now back in Alberta again.

Anton Beggs, another early settler
and big farmer, now lives in Califor-
nia and rents his farm to some Duk-
ehobors.

John Stuart sold out to Bill Sam-
mons and now lives in Calgary.

Burns the carpenter, sold out to A.
Godkins and is now living in Van-
couver.

Dan Shaw, who also sold out to
Godkin and later started a store and
postoffice at Majorville, has left the
country.

Cun Long, another big farmer, got
mixed in some unlucky speculation
and lost out. He is now living
near St. Paul de Metis.

George Gieves sold out to Harry
Dietz and bought a big farm twelve
miles west of Bassano.

O. O'Toht, the old time rancher and
and later big farmer, sold his land
late to Leslie Long, and is now
travelling for his health and trying
to spend some of his money.

Frank Pobst, who also lived among
us for a while, now resides at Glei-
chen.

John L. Ash, who never home-
steaded but bought land outright in
the early years and became quite well
fixed, sold out a year ago and is now
growing rice down in Arkansas.

Tom Scott died several years ago
and Harry Scott, his brother, who
besides holding down a homestead al-
so operated an implement business
in Gleichen years ago, has also gone to
his reward.

Albert Prentice, another early home-
steader and brother to George, went
back to Ontario.

Senate O'Leary, who at one time
farmed on a large scale, left the
country some years ago to parts un-
known.

Harry Thompson, east of O'Leary,
sold out and left the country and is
supposed to have died since.

Nels Munkholm, who had a home-
stead away over east and later bought
the Clark place, now lives at Okotoks.

Harry Baker, known to have grown
wonderful crops of wheat in the early
years, has sold out to John Winkler
and is now operating a farm in Min-
nesota.

Smalcomb and Penn, who took ad-
joining homesteads, are both gone.
Smalcomb to Michigan and Penn to
B. C.

No doubt I have overlooked a few
old timers still this mentions the ma-
jority of them and if all the trails and
discomforts, most of these men had
to go through in the early homestead-
ing days, were written up it would
fill a big book.

F. Beckner died a couple of years
ago Mrs. Beckner still operates the
farm.

Ole Solberg, one of the first set-
tlers, sold out and went back to North
Dakota.

Millikowsky, the Russian, sold out
and started a milk route in Calgary.
MacPhee left his farm to his wife
and departed to parts unknown.

Ole Nelson the richest man among
the Norwegian settlers, was ac-
cidentally killed last year. His wife and
sons now run the farm.

The Lahd Bros. John, Andrew and
Martin, all sold out and went to Ald-
erson and were dried out. John then
went to Montana, while Andrew and
Martin returned to Queenstown,

where they are now engaged in bus-
iness.

Old Man Hall, who bought out John
Lahd, died several years ago and the
farm is now owned by M. Hulbert.
John Hall, called Badger Hall, died
some years ago; while Milo Munroe,
who bought part of his land died a
few months ago.

Ben Hall, another old homesteader,
died several years ago and Mrs. Hall,
now living in Michigan, still owns the
place.

Joe Nester, having unusually long
also rigs, his fiens claimed it was
necessary to cut a hole through the
end of the shack where he could stick
his feet through, sold out and went
to Minnesota.

Baker, his neighbor, died and both
quarters sold to Harry Dietz and lat-
er to John Eble. Both John and his
cousin, Jay Eble, who farmed on a
large scale here for some years, sold
out and went to California. Wm.
Smith, Eble's father-in-law, sold out
and went to Washington.

The Big Parade

No more whole-souled appreciation
of "The Big Parade" has been found
in any other section of the world
than right here in Canada
where the celebrated Metro-Gold-
wyn-Mayer picture was acclaimed
alike by English and French news-
papers as the greatest historical epic
ever made for the films.

La Presse, Montreal's big news-
paper, said "The Big Parade" was
deeply appreciated by every friend
of France for its portrayal of Meli-
sande as a magnificent tribute to the
noble qualities of the Frenchwoman
in the World War, and the leading
English newspaper, the Montreal
Star, stated that on the opening night
the house "rocked with laughter or
sat tense with thrills or shaken by
emotional memories as the story un-
folded. A romance well and grace-
fully told. Humor of an irresistible
kind. A vast panorama of the war
as it was fought," are some of the
other characterizations by the Star.

In Toronto also the picture received
great acclaim. It will rank in screen
history as one of the most popular
films that ever toured the 3,600-mile
breath of the great Dominion.

**An
INVITATION**

**SPECIAL
PRESENTATION
of
The
Outstanding Chevrolet
of Chevrolet History**
EVERYONE is familiar with Chevrolet's brilliant
record of past success, but the new Chevrolet
represents the most spectacular of all its achievements
... introducing a new conception of motor car value.
It is with pleasure, therefore, that we announce our
ability to secure the services of a Chevrolet factory
expert to conduct for us a special presentation of the
Outstanding Chevrolet of Chevrolet History.
This presentation comprises a complete, thorough ex-
planation of this sensational new car—and, in addi-
tion, a special series of illuminated slides and a motion
picture of unusual interest entitled "With Chevrolet
Across Canada."
Everyone is interested in the latest automobile de-
velopments! Everyone is cordially invited to attend!
Make a note of the time and place.

orem would be about right.

Dr. Williams' Pink Pills for Pale People

What most people regard as indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is to take an alkali, which neutralizes the acids. But don't use cake bakes. Use what your doctor would use. Dr. Williams' Pink Pills for Pale People. The best help is Phillips' Milk Magnesia. It is recommended standard with physicians. But if you find nothing else is quick it is best, so harmless, so efficient.

One teaspoonful in water neutralizes many times its volume in acid. It is the only food that has no after-effects. Once you take it, you will find that it does not come in the crude way of some acids—why this method is superior.

It is good for the genuine Phillips' Milk Magnesia prescribed by physicians. It is good for the genuine Phillips' Milk Magnesia prescribed by physicians. It is good for the genuine Phillips' Milk Magnesia prescribed by physicians.

THE CRIMSON WEST

—BY—
ALEX. PHILIP

Published by The Argonaut Press, Ltd., Toronto, Ont.

CHAPTER XIII—Continued.

"Isn't it beautiful?" He indicated with a sweep of his arm the lake, the wooded hills and the glittering glaciers filling their heads high to the sparkling mountains. He turned to find his companion staring with downcast eyes.

"Don't you like it?" he asked, a little restlessly.

Janet raised her head slowly. The light of the sun was on her face, and her eyes were soft and languorous in the half-light; the full red lips were deep and tremulous; the jewel light of the moon shone upon her radiant upturned face, giving it an ethereal glow.

"It is wonderful," she breathed.

Unconsciously she moved forward. What was this inner urge? Love, feeling—emotion, or, it might be, passion?

Laughter and voice came from the trail above. Douglas with several of the visiting party emerged into the white light of the moon. Douglas called his sister's name and Jack and Donald moved up the hill to join them.

CHAPTER XIV

A week before Dominion Day men began applying for leave of absence until the evening of the 1st. The day was such an exact that it was deemed advisable to shut down for a week. Donald turned to look at his sister, the whole crew of "redskins" pelted tumultuously on the trail.

"How often do the men quit in this way?" he asked rather irritably.

"Every holiday," replied Jack. Donald pondered a moment.

"That means that we may lose a week for Labour Day," he said.

"Very likely."

"Jack, do you think we could meet here if we had some sort of celebration at the lake?"

"I believe we could," responded Gills warmly.

"Well, it don't," declared Donald. "We've so many other things to do that this holiday may force us to run a tight crew."

"And you spent all your dough, Huckle?" asked Gills when the "redskins" arrived back from town. He and Elopia had been absent for a hundred bucks, but had found three hundred dollars in their trunk. We can't get enough money any more, humbugging a pair of legs," but there had been a hidden profit on it, so we ain't worried."

Nervous Run Down The Least Noise Would Bother Her

Mrs. E. Burton, Oshtemo, Ont., writes: "Three years ago I was no longer able to run down stairs without having the children make a fuss. It would bother me."

"A friend advised me to take

MILBURN'S HEART NERVE PILLS

and after taking two boxes I began to feel stronger. I could now run the color came back into my cheeks, and I no longer feel nervous."

Price 6c a box at all druggists. Write to the Dr. T. Milburn Co., Ltd., Toronto, Ont.

on the next train. An hour later the agent brought Donald a telegram:

"Donald McLean,
"Thank you, Mill.
"You are promoted to position vacated by Henwick. Refuse strictly demands. Ship to Squamish. Oriental order white pine. Utmost importance lumber loaded within week. Use every means in power to keep plant operating."
"The perfect Henwick!"

He passed the message to Gills. The big man turned and grunted. Donald looked out at the snow and "Well, get that!"

"We'll get that!" he ordered out the snow and "Well, get that!"

"We'll get that!" he ordered out the snow and "Well, get that!"

Protect Your Children From "Flu," Grippe

A WARNING TO PARENTS!

Flu germs are everywhere today. They reach the system through the nose and throat, and can protect their children in a very simple way.

Take a saucer of water place it on a lamp or stove. Add a few drops of Catarrhinol to the water, which is kept boiling. Let the steam from the kettle rise so that the medicine is inhaled by the child. This germ-killing vapor disinfects the child's breathing organs and kills the germs.

Catarrhinol Vapor stops colds, croup, prevents Flu, Safe and efficient. Just as good for adults as for children. If you keep the air in your home disinfected with Catarrhinol Vapor you are well protected from Catarrhinol, Flu, Coughs, Grippe, and Colds. All druggists sell Catarrhinol in 50c bottles.

Highest City in World

La Paz, Bolivia, Is 12,470 Feet Above Sea Level

La Paz, Bolivia, where the war clouds have been lowering of late, is the highest capital in the world, for it stands on a mountain-top 12,470 feet above sea level. This is 2,000 feet higher than Quito, Ecuador, and 5,000 feet higher than Mexico City.

Its nearest rival for height is the Peruvian city of Arequipa, which stands at an altitude of 11,850 feet. The mean temperature of La Paz is 50 degrees Fahrenheit, but it is never really warm there except in the sun. The climate is healthy and invigorating, but it is not really warm there except in the sun.

It is not really warm there except in the sun. The climate is healthy and invigorating, but it is not really warm there except in the sun.

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THIS new is all-powerful life product. Nature's universal disinfectant and tonic. It is the most powerful medicine known.

Medical research has definitely proved that from the point of view of health and vitality, the most effective agent in the world is the Ultra-Violet rays, which possess the power to destroy all germs and bacteria of disease and decay.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays. The invention of WINDOLITE has completely satisfied the demand for a material which is transparent and which permits the passage of Ultra-Violet rays, and that it is most effective in the treatment of all diseases of the skin and the eyes.

Indeed, the discovery of WINDOLITE has opened up a new and complete revolution in medicine, and has given us a new and powerful agent for the treatment of all diseases of the skin and the eyes.

WINDOLITE is a new and powerful agent for the treatment of all diseases of the skin and the eyes. It is the most powerful medicine known.

HOCKEY

(Continued from page 1.)
and Max Yates. Sals, M. Desjardins, L. Gros and L. Wright.
Thanks for the big turnout on Saturday. It shows there is interest in the Wildcats and encourages me to go ahead with them. Look over the coming events column and keep Friday, March 1st, in mind.

(BY DIN SWAIN)

On Tuesday, Feb. 12th, the Gleichen Junior Grangers played the Cluny athletes at Cluny, and defeated them two goals to one. The writer did not see the game and so cannot give a description, but from all accounts the teams were well matched and a good crowd of spectators got their money's worth. Looking over the penalty list one gets the impression that this match has been a more or less interesting game. We understand that Bill Taylor and Maynard were chased to the cooler together in the third period for getting mutually hostile. Pat Bache started for Gleichen in goal. Pat Bache put up a real exhibition of goal tending in the third period. The Clunys had got through the Gleichen defence and just the goalies to beat and failed to score.
There was no scoring in the first period. Bill Taylor scored for Gleichen in the second period on a pass from Campbell Brown. Bill Taylor also scored on a solo run for Gleichen in the third period. Then with five minutes to go, H. Corbell scored for Cluny.

Line-ups of Teams
Cluny—Goal, Goodlander; Edwards, Corbell and Maynard; Forwards, J. Bailey, Leavens and Nelson; Sals, Gourdine, Kirkpatrick and Desjardins.
Gleichen—Goal, Pat Bache; Defence, Bill Taylor and G. Kishner; Forwards, Mattson, C. Brown and T. Brown; Sals H. James.

Penalties—1st, period—Haley, 1 min., Corbell, 1 min.
2nd period—Maynard and Brown 1 min.
3rd period—Rishaug, 1 min., Bill Taylor, 1 min. and Maynard, 1 min.
Referee—Velleux of Cluny.

Gleichen, Alberta.

February 12th, 1929

The Gleichen Call,
Sir:—
The changing of the school system of Alberta is a subject of vital importance to every taxpayer in the Province.
The minister of education, Hon. Percy Baker, when he took office several years ago, discharged as a matter of economy 50 per cent of the school superintendents.

Was the system better for the discharge of those inspectors?
What became of those ex-inspectors; did he find them other work? Mr. Baker now wants to add 75 per cent more inspectors or "super-visitors", as he is pleased to call them, to be paid out of our already too-heavy taxes.

Traveling expenses of supervisors and their assistants must be paid to a central point, a still further expense to be met by taxation.
No fixed rate of taxation other than 7 1/2 mills is guaranteed, possibly 7 1/2 more would be added or still more. Some fixed sum as a maximum of taxation should be given.

Objected could be raised to the building of new school houses, which are not needed, and have to be built for, after struggling for years to pay off the debentures on their own schools.

The new system would leave open a chance for patronage or political preference.
Teachers hired by the government would be apt to think they were beyond the jurisdiction of the local board of trustees.

It would take away the close financial touch between teachers and trustees.
The idea is to take the supervision from the different districts.
It is doubtful if the necessary number of supervisors could be found in each district, unless from those parties who are on the look out for such political jobs. And would they be likely to discharge the duties of supervisors?

People in the outlying districts located on that land because it was cheap. They did it with their eyes open. They gave no thought then to the education of their children, but they are anxious now for someone else to do it for them.

I can hear a whisper against co-operation. Just so, but the same people who are strongly for the new system of equalizing school taxes, are just as strongly against the equalizing of land insurance, because they don't get any bail.

I may not understand this question in all its ramifications, and this is open to correction.
I would like very much to hear the point of view from others.

As I see it now the proposed new system cannot help but increase the taxes of the districts.
Charity begins at home.
NAT BOWEN

COMING EVENTS

Ads. under Coming Events 25c. per cent line unless otherwise advertised in The Call.

Feb. 15—Valentine Novelty Dance in Queenstown Com. Hall.

Feb. 16—Strathmore at Gleichen.

Mr. and Mrs. Art Byers desire through the CALL to express their sincere thanks to the friends who showed them so many kindnesses during the illness of their latest son and his demise.

Town and District News

What's on Monday night?

When you have visitors slip the facts on to the Call.

"Scouty" Gove is enjoying a vacation on the Pacific Coast.

The "Big Parade" costs only five and 50c for children—it's worth it.

Mr. and Mrs. J. O. Rogette spent a few days at the Banff carnival last week.

David McLean spent last week at Lethbridge attending the school trustees' convention.

All who have seen "The Big Parade" say it is good and many the best yet—Monday.

After four weeks of cold weather the mild weather starting Saturday was appreciated.

An Ad in a newspaper will bring the customers, but it's up to you after that.

Friday March 1st, Gleichen Midgert Hockey Club, concert and dance at Community Hall.

So far no one has taken the lead in building a covered rink. Who is he brave one?

J. E. James took in the Banff carnival for a couple of days last week. Jack was not among the old winners this year, but his friends predict he will win the new "whale dive" next year.

A. Yates spent several days last week at the Banff carnival and reports enjoying himself and meeting a number of old friends.

The Shamrock school children have loaded the school grounds and now have a very good skating rink and fence. All summerlong, ready for the drill, 3 granaries, 6 miles from Gleichen, Alta. It is very level, and fertile.

"Tiger" Lyons has come to Calgary to work, which is a serious loss to Gleichen—Calgary may now win a game or two here!

The annual meeting of the Alberta Red Cross Society is to be held in the Macdonald Hotel on Saturday, February 22nd and 23rd at Edmonton. The program has already been issued, and is very promising.

What's the matter with Gleichen, asking a lesson from Shamrock and leaving the school grounds flooded? The water is handy and the little tot should have a rink all to themselves.

Weather for all—Folks who like nice mild winter had it until up to the middle of January. Since those who like it snappy have no reason to complain. Now the rest may have their shoes—let us see.

Mrs. Wm. McConnell returned home Sunday for Gleichen with little Jean, who has not been well for sometime and spent several days last week under medical specialists and has very encouraging reports of her condition.

With the loss of "Stiffy" and "Tiger" some of the nearby towns may just join courage to tackle our Home Brew. Gove says it may not be so easy as it looks—nothing like trying.

A Valentine Novelty Dance is announced for Friday, Feb. 16th, to be held in the Queenstown Community Hall with music by the "Harmony Four." Everyone will want to see what this means and a big attendance is assured.

Alex. Lewis has resigned, his position with the Ramsey Mercantile Ltd. and is preparing to open a general store business at Namska, where Mr. McIntosh's store was recently burned. He will be greatly missed in Gleichen as our best violinist, and manager of the 22nd Battery Hockey team.

A letter received at the CALL office from Mr. and Mrs. G. T. Jones states they have been enjoying their trip through the south and eastern States very much indeed. Mrs. Jones says she found Florida too warm, but the weather in California was just what she needed. They were found down with fruit and loved the sound of ocean waves. They wrote from Kansas City on their way home to Gleichen, where they had met some old friends.

Next Monday, Feb. 18th, a special presentation of the Chevrolet will be made to be given in Greer's Garage at Arrowwood, by a Chevrolet salesman. Mrs. Jones says she is interested in automobiles and will be present. For further information write the Chevrolet ad on page five of this issue.
